

HP SDWHT

Solvent-based ink

Art.-No.: 40046665

Features & Applications

- Opaque white color
- Especially formulated for printing on various non-porous substrates without dryer
- Ideal for dark color substrates such as rubbers, cables, cosmetic boxes and auto parts
- The ink must be tested on customer material before use

! NOTE: The ink cartridge must be stored in „Nozzle Up“.

To obtain optimal printing conditions, shake the cartridge up and down for 30 seconds before Startup.

Follow maintenance instructions.

Characteristics

Decap time

Dry time

Colorfulness

Print behaviour

Durability on non-absorbent surfaces

Readability of barcodes

Specification	
Color	White
Ink type	Solvent based ink (highly pigmented)
Decap time	20 min under normal condition & environment
Printing parameters	Voltage: 9,0V /Pulse width: 1,8µs
Pulse Warming	Off
Max. Frequency	12kHz
Shelf life	6 months from the date of fill
Heater requirements	No dryer necessary
Recommended operating condition	15-35°C / 59-95 F, 35-80% RH
Storage condition	Room temperature
