HP 2580

Solvent-based ink

Art.-No.: 40050843

Features & Applications

- Fast dry times without heat assistance to achieve high-productivity printing
- For package production facilities using coated foil, semi-porous and flexible film substrates
- Smear, face and water-resistant (ink performance may vary based on subst-rate, printing system and environmental conditions)
- Optical density and contrast are well suited for 1D and 2D barcode readability
- The ink must be tested on customer material before use

Specifications	
Color	Black
Max. firing frequency	12 kH
Decap	> 30 mins
Pen driver voltage	8,7 V
Fire pulse length	1,8 microseconds
Pulse warming	Off
Shelf life	12 months from the date of fill
Recommended operating conditions	15-35°C / 59-95 F, 35-80% RH
Storage conditions	Room temperature

Characteristics

Decap

Dry Time

Darkness

Print behaviour

Durability on non-absorbent surfaces

Readability of barcodes
